

CarboFerm™ Neisseria Test

CarboFerm Neisseria is a rapid method for identifying *Neisseria* species by sugar fermentation profiles. This test reduces the identification time from 24 hours down to as little as 2 hours.

For identification of *N. gonorrhoeae*, *N. meningitides*, *M. catarrhalis*, and other *Neisseria* spp.

Fast

Results in 2 to 4 hours.

Easy-to-read

Clear color changes from red to yellow and white to blue.

Easy-to-Interpret

Reaction cards aid in interpretation of fermentation results. No instrumentation needed.

Reliable

Found to be 100% accurate*

CarboFerm Neisseria Test

24 Tests - Cat. no. Z98

* Preliminary study by Janda et al. correctly identified 100% of 38 isolates tested. Call for more information.
