CRYOSAVERS™
Ready-to-use Cryogenic Vials
CryoSavers™ is an easy, safe, and convenient way to store organisms at ultra-low temperatures for future use.

Archivable
Each vial includes a unique barcode and number for accurate sample identification.

Make your mark
Large writing surface for sample identification.

Volume reference
Printed graduations for accurate measurements.

Our innovative screw caps help eliminate leakage and contamination
All caps include a TPE co-molded seal, which gives one of the best closures available in cyrostorage vials. This molding process helps eliminate the risk of sample loss and contamination commonly associated with o-rings.

Easy Storage
Durable storage container protects the vials and saves space in the freezer.
