“We are committed to producing and distributing the finest products for the detection of microorganisms, as we partner with our laboratory customers to diagnose and prevent disease.”

Jay Hardy Hardy Diagnostics CEO and Founder

Sales Team

We are committed to supporting and promoting a portfolio of products for the detection of microorganism. Integrity comes first when consulting with our laboratory customers and distribution partners. We strive to provide value by giving the best service in the industry and building lasting partnerships.

Customer Service

We provide customers excellent assistance with a focus on accuracy in a timely and pleasant manner.

Technical Support

We give every customer inquiry individual attention, answering all questions to the best of our ability, and investigating all complaints to ensure customer satisfaction.

Now you have a competitive choice!

Hardy Diagnostics offers an extensive selection of antibiotic sensitivity disks for the Kirby-Bauer disk diffusion test.

Mueller Hinton Agar
Cat. no. H11

New HardyDisk Last Disk Recognition

The last disk in each cartridge is clearly marked with dark lines around its edge. This signifies the end of the cartridge, and gives you advance notice on when to refill with a new one. Spring-loaded in cartridges of 50 disks for smooth and reliable dispensing.

Compatible with Common Dispensers

The HardyDisks™ AST cartridges are compatible with the BBL™ single or multiple disk dispensers. Each cartridge contains 50 disks that are spring-loaded for smooth and reliable dispensing.

FEATURES AND BENEFITS

A complete line of all commonly used antibiotics.

Available in single cartridges or packs of five.

Can also be used with the metal single disk dispenser (Cat. no. 260457).

Improved to prevent jamming and tearing.

Innovative Packaging

HardyDisks™ AST cartridges are packaged in a new canister that features a desiccant built into the lid.
